LADIES' SHOULDER AND DRESS SPRAYS.

Estimates given for Floral Decorations of all Descriptions.

DAHLIAS.

1

Our reputation as Dahlia Growers for fully fifty years is well known in South Wales. Our plants are from sturdy, healthy cuttings. To those who have a cold frame or a greenhouse, it would be wise to have in their plants early in May. These, if potted at once, would flower at least 14 to 21 days earlier. Our Collection is unequalled by any firm of repute, either in Great Britain or on the Continent. Many of our own seedlings in the past have received the highest awards. At the Dahlia Trial, held by the Royal Horticultural Society, at Wisley Gardens, in 1921, six of our varieties sent for trial received awards, and are offered for sale in this year's list. Customers will oblige by clearly stating in their orders whether the plants are wanted for Exhibition purposes or for garden decoration.

* Denotes Bedding Varieties.

Cactus Dahlias.

Our Selection, strong plants in pots, any Section, 9/- per doz. Each—s. d. Alabaster (STREDWICK)—pure white; 4 ft. 0 10 Alexander Kennedy (STREDWICK)—deep crimson; 4 ft. 0.10America (Keyne's)—flesh-pink, striped carmine; 4½ ft. 0.10*Amos Perry (Hobbies)—scarlet, good stem; 4 ft.
